About Us

Restoration Solutions, LLC is a full service specialty contractor providing diverse restoration and preservation services and solutions on a wide array of projects.

Restoration Solutions, LLC, can provide assessments, forensic investigations, and budget preparation to owners, architects, engineers, construction managers and trade professionals. Restoration Solutions, LLC offers a turnkey approach to your concrete and masonry needs. From execution of repairs to preventive maintenance, we have the ability to service any size project, not losing sight of the client's budget and schedule.

Our Team

Victoria K McCue, CEO and Manager of Operations, has an exceptional record within the construction industry starting in 1985. A vital asset to owners with varied assignments including sports complexes, large corporate headquarters, complex health care facilities, and notable educational projects. Victoria is a highly talented professional whose strong operational, estimating, purchasing and value engineering abilities are enhanced by significant knowledge of the construction industry.

Lance A. McCue, Sr., President began in the restoration field in 1986, working under some of the most skilled tradesmen of our time. Having experienced all roles of the industry from laborer to foreman, Lance has the skill, expertise and insight into many building's problems and issues from simple cleaning to structural restoration.

Our teams, assembled from the most talented and experienced Project Managers, Foreman and Journeymen in the entire region, have been hands on since our inception in 2003.

A Certified WBE Organization

Why Us?

Restoration Solutions understands how vital collaboration is for the construction industry. We work with our peers through memberships with various industry leaders such as the International Concrete Repair Institute (ICRI) and Sealant, Waterproofing & Restoration Institute (SWRI).

Continuing Education works to the advantage of our clients since our staff consistently and continually obtains and renews certification with leading manufacturers. Restoration Solutions holds installer certifications with various manufacturers including restoration products, structural strengthening, expansion joint and resinous flooring producers. Our competitive edge can be to your benefit.

Safety is essential for our staff. Our team conducts regular safety meetings and attends safety courses through the course offerings by entities such as Workplace Safety Training System OSHA Risk, American Platform & scaffolding, Forklift Safety for Construction, and Scaffold Training Institute.

Let our experience work for you. As industry leaders within our specialties we are committed to utilizing our knowledge to ensure successful projects for every client.

Restoration Solutions holds Diversity Certification with local, state and federal organizations. Diversity and Inclusion goals work to ensure equality for minority, women, and veteran owned business. Your partnership with Restoration Solutions will ensure you are moving toward your diversity and inclusion goals.
